

The figure displays the relationship between the number of principal components (P.C.) and the explained variance (R²) for the first four principal components. The top panel is a line graph showing the cumulative explained variance (R²) as a function of the number of principal components. The bottom panel is a table of statistics for each principal component.

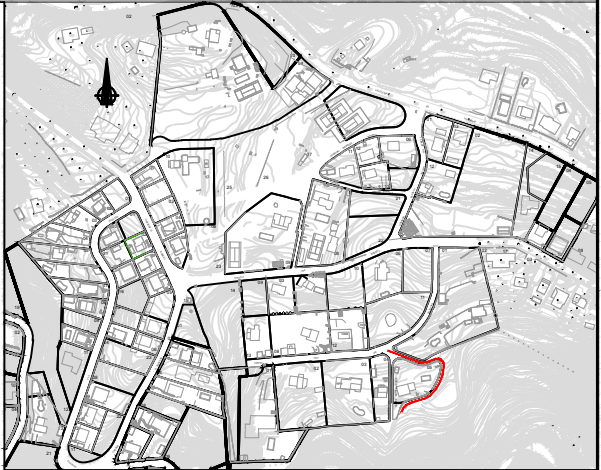

P.C.	Dist.	AC.V.	P.S.	R²	L
1	10.000	1.423	8.577	10.601	11.423
2	20.000	1.423	8.577	261.280	15.868
3	27.291	2.709	2.146	10.971	4.855
4	32.146	7.854	10.000	40.359	31.037
